

Language and Sport

ISB is the leading language school for languages in combination with sport in Liechtenstein and offers the possibility with a well balanced programme to study German and English throughout the whole year. Every morning the young students attend classes and experience interesting and relaxed language courses in the language programme they have chosen.

In summer we offer activities like swimming, Beach-volleyball, volleyball, football, basketball und much more.

In autumn and spring we offer you in addition to the different sports hiking in the various hiking areas for which Liechtenstein is famous. Enjoy the spectacular views!

After the morning classes we have lunch which is either provided by the family or by the school. After lunch you have sport activities.

In Winter we try to do the sports that are possible in our region. These are in the first place skiing and snowboarding but cross country skiing, ice skating and tobogganing are possible. For skiing and snowboarding we have experienced instructors who will help you to learn or improve your skills.

The evening programme is entirely your decision and can be organised in your group, with families but you can also take part in programmes the school organizes for you.

Included in the package are school, sport activities and full board. You are either accommodated with families or in simple hostels, small guest houses or small hotels. In Breakfast and dinner is provided by your hosts and lunch packages are either provided by the hosts or by the school. The lunch package includes a sandwich - meat or vegetarian - on seasonal fruit, a soft drink and a sweet something. If you desire anything else above the provided lunch you can obtain those items in nearby shops.

Liechtenstein is very well known as a holiday country. The small Principality in the centre of Europe is one of the safest countries in the world. Practically no one is in danger at all as there is no crime against human beings. Life in this country is quiet and uncomplicated. Still the country offers everything one wishes, shopping areas, discos, bars, etc
